Amendment A

DEC 05 2000

Commissioner of Patents and Trademarks
Washington, D.C. 20231

TECH CENTER 1600/2900

Madam:

In response to the Office Action dated 08/14/00, applicant respectfully requests that the Examiner's rejection to claims 1-4, 6, 7, 9, and 10 be reversed. With the helpful suggestions of the Examiner these claims are now in condition for allowance with the following appropriate amendments to the above application.

Election/Restriction:

The applicant confirms that a provisional election was made without traverse to prosecute the invention of species II, claims 6, 7, 9, and 10.

Claims:

1. A method for determining the presence of HIV antibodies (anti-HIV) on an unknown test sample, said test method being composed of a buffer, antibody or antigen or indicator employing a dry chemistry test strip or a dry chemistry lateral flow device that produces a detectable response or a change in the absorbance or intensity of a color or line in the UV or visible spectrum in the presence or absence of anti-HIV.
